

Lakeside News!

Nursery

Summer

Message from the class teacher:

Welcome to Lakeside Nursery's newest members! We hope everyone had a amazing Easter break and is eager to learn many of amazing things this term! We are excited for our this summer term by delving further into the ASPIRE curriculum topics of '*Journeys and Transport*' and '*Minibeasts*'.

An overview of learning this term

This summer term, we have an exciting and enriching learning journey planned for our Nursery children! Through our topics, we will be enjoying a variety of both fiction and non-fiction stories, helping children to develop a love of books while expanding their vocabulary and understanding of the world. In our Minibeasts topic, one of the highlights will be observing real caterpillars grow and transform into butterflies—a magical and memorable experience for our little learners!

We'll be continuing to cover all areas of learning from the Early Years Foundation Stage (EYFS) framework and With the warmer weather, we'll also be making the most of our outdoor learning environment, taking part in nature walks, water play, and creative outdoor activities in the sunshine. We're looking forward to a joyful, sun-filled term full of growth, curiosity, and friendship!
