Year 5

Summer Term

Message from the class teachers:

Welcome to the summer term! We're excited to continue the momentum from a fantastic spring term, where the children engaged in a range of activities. In D&T, they had great fun making Spanish omelettes, tying in with our Geography focus on Spain and rivers and in Science, we explored materials and their properties. We're looking forward to building on these experiences with more exciting learning opportunities this term!

An overview of learning this half term

- Maths: We are covering negative number, decimals and shape.
- English: We have done a setting description about a Victorian workhouse and will be looking at balanced arguments.
- History - What the Victorians did for us.
- Science: Lifecycles
- RE: Can charity change the world?
- Spanish: The Olympics.
- D&T: Rag dolls
- Computing: Tinkercad & 3D modelling.
- PE: Problem solving & outdoor adventure activities.
